**Greenland is melting**

Windhosting.net has been a leading provider of superior green web hosting services since 2009.

from image to action  
**FIND A CAUSE**

# DONATE

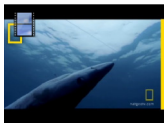

**Earth Protect informs, educates, and inspires people to move "from image to action" for a sustainable future.**

JOIN today, becoming a member of Earth Protect is an important step to an environmentally, economically and culturally restored planet. JOIN [earthprotect.com/community](http://earthprotect.com/community)

Earth Protect lets you find and share videos and films on environmental issues and solutions, and learn more about how you can get involved. The result will be people and their organizations worldwide becoming aware, informed and committed, as they are empowered to take action to protect the Earth and achieve a sustainable and healthy environment.

### FEATURED NONPROFITS

#### Scripps Photobiology Group

**Mission:** The Scripps Photobiology Group at the Scripps Institution of Oceanography is focused on understanding the interactions between light and living organisms.

#### Denver Office of Sustainability

**Mission:** The Office of Sustainability's mission is to ensure that the basic resources on which our quality of life depends are available and affordable to everyone, now and in the future.

#### Rocky Mountain Wolf Project

**Mission:** The Rocky Mountain Wolf Project aims to improve public understanding of gray wolf behavior, ecology, and options for re-establishing the species in Colorado. The benchmark of our success: Wolves again roaming the snow-capped peaks, rim rock canyons, and p ...
