Wyoming State Senator Anthony Bouchard Endorses Foster Friess in Wyoming Gubernatorial Primary

“Wyoming is at a pivotal point. We need a Governor who will fight to restrain state spending and reduce taxes, bring transparency to state government, and who will stand up against gun control and work to expand Second Amendment freedoms for all law-abiding Wyomingites. Several candidates agree on these issues, but I believe that Foster Friess will FIGHT for them, and that is why I’m happy to endorse him in our upcoming gubernatorial primary!” -- Anthony Bouchard, State Senator, District 6

(Cheyenne, Wyoming) – This morning Wyoming State Senator Anthony Bouchard proudly endorsed Foster Friess for Governor, in advance of the August 21st gubernatorial primary.

“Wyoming needs a fighter, who will do more than just pay lip service to our conservative principles. From spending, to transparency, to gun rights and much more, we need a Governor who has the experience and fortitude to fight for these principles. I believe Foster Friess is that man,” said Anthony Bouchard.

Bouchard, an outspoken conservative member of the Wyoming Senate, has been sounding the alarm over the state's refusal to open up the state books and has been a leading champion for gun owners for years.

Bouchard continued, "Foster Friess has been a conservative fighter for decades, and has spent millions of dollars in support of conservative causes. He's put his money where his mouth is. That combined with his business background, makes him supremely qualified to be the next Governor of Wyoming."

The 6-way primary will be decided by the voters on August 21.

"The next Governor of Wyoming will have the ability to reset the direction of our great state. We have to get this right and we need a Governor who will fight for these issues. Foster Friess is that man, and I'm happy to endorse him," Bouchard concluded.
